Fisheries Review is intended to furnish fishery biologists with abstracts of current literature in applied, fishery research, and management.

One volume, consisting of four numbers, is issued each year. Each number contains separate Author, Geographic, Taxonomic, and Subject indexes. Authors who publish in journals not abstracted for *Fisheries Review*, and who would like their publications included, should submit abstracts to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from multiple sources.

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Fisheries Review does not distribute any of the papers cited herein, nor can the editor of *Fisheries Review* obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the Conservation Directory, an annual publication available from the National Wildlife Federation, 1412 16th St., N.W., Washington, D.C. 20036. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Camera-ready copy for this issue of *Fisheries Review* has been generated by computer programs developed by the Data Base Section, U.S. Fish and Wildlife Service, Office of Information Transfer, 1201 Oak Ridge Drive, suite 280, Fort Collins, CO 80525
